

Do You Have a Missional Group?

Is your cell group more like a cruise ship or a pirate ship? Do they show up and are just along for the ride, expecting to get fed and catered to until they graduate? Or do they have the vision of putting everything on the line and going on an adventure/mission? We hope that you can say that you are equipping a bunch of pirates for Christ. We have been given a mission from Christ to go and make disciples. We hope your cell group is a missional group not one that is just cruising along. Here are a few indicators of what kind of group you have:

1. Do the students in your group see cell group as some sort of a club that is exclusive, or are they wanting to have others join them in this adventure?
2. Are students willing to sacrifice, or when you ask something hard of them do they jump ship?
3. Is cell group simply about them and their experience or do they understand that FSM exists to "turn students into world changing followers of Christ?"
4. Do students in your group have hearts for the lost at their school and a desire to see their friends come to Christ? Are they trying to avoid contact with the outside world and just be comfortable in their "Christian ship"?

Lord, please make my cell group a pirate ship. I don't want to have a cruise ship mentality in my group. Please help us to have a big vision for glorifying Christ instead of simply staying content in our relationship with him.
